

At the Hike Starting Line: RED Trail hikers (longer trail) should be at the front. YELLOW Trail hikers (shorter trail) should be at the back of the hike trail crowd.

"Yellow" trail hikers: If the trail is crowded, this is a good place to step off trail to allow "red" trail hikers to pass before you turn around to hike back down to the event area.

Optional Scenic Route can be added on to either red or yellow trail.

Note on choosing which trail to hike:
If you have small children or dogs not used to longer walks, the "Yellow" Trail may be the best option.

"Yellow" trail hikers: turn around and hike back to event area.
